

# The Science Behind Your GNLD Business

Throughout the world, GNLD is recognized as the leader in product science and technology. From our revolutionary, patented whole-food supplement Carotenoid Complex, to our ecological “low dose, low burden” home care cleaners, each GNLD product reflects our ongoing commitment to scientific investigation in the pursuit of product excellence.

*Sr. Member, Arthur Furst,  
Ph.D., Sc.D., A.T.S.*

Internationally recognized Toxicologist,  
Pharmacologist.

*Gordon W. Newell, Ph.D., A.T.S.*  
Biochemistry, Toxicology.

*Fred Hooper, Ph.D.*  
Microbial Biochemistry, Nutrition.

## GNLD's Scientific Advisory Board

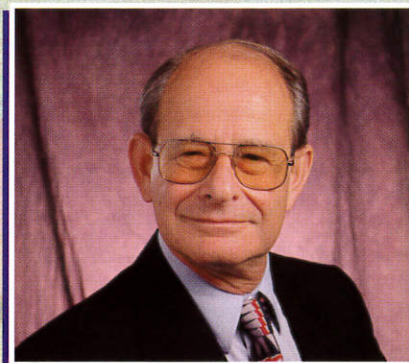

The SAB is a working group of world leading scientists and researchers that form the core of the GNLD Global Science Network. GNLD's commitment to science is the main reason why we have been, and remain, a world-wide leader in product innovation, quality, and effectiveness.

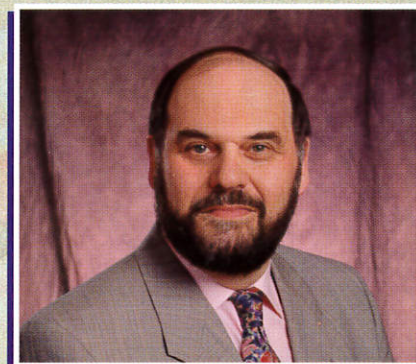

*Arianna Carughi, Ph.D., C.N.S.*  
Nutritional Sciences and Stanford Fellow.

*John R. Miller*  
GNLD International Vice President of  
Science and Technology.

*Laszlo P. Somogyi, Ph.D.*  
Food Technology, Nutrition.

*David Shepherd, Ph.D.*  
Microbial Biochemistry. Director, GNLD  
Product Science and Technology, Europe  
and Africa.
